

TMS Scheduling

Hinges

The Hinges offered by TMS Scheduling are either manufactured within the UK or imported by the likes of Hinges & Things, AFL or Frisco to suit a wide standard of applications and budgetary requirements.

Hinges are offered in a selection of sizes to suit all types of doors whatever their size or the amount of operating cycles required.

The Hinges shown are manufactured from either mild steel, stainless steel or brass with the appropriate bearings or washers to suit the given application.

Steel and brass Hinges can be plated to a selection of high quality finishes either for protection against weather or for aesthetic purposes.
